Board of Supervisors
Heritage Harbor Community Development District

Dear Board Members:

The Regular Continued Meeting of the Board of Supervisors of the Heritage Harbor Community Development District is scheduled for **Wednesday, October 2, 2019 at 6:30 p.m.** at the **Heritage Harbor Clubhouse, 19502 Heritage Harbor Parkway, Lutz, FL 33558.**

The advanced copy of the agenda for the meeting is attached along with associated documentation for your review and consideration. Any additional support material will be distributed at the meeting.

The balance of the agenda is routine in nature. Staff will present their reports at the meeting. If you have any questions, please contact me. I look forward to seeing you there.

Sincerely,

Patricia Comings-Thibault

Patricia Comings-Thibault

LANDSCAPE INSPECTION

September 5, 2019

ATTENDING:

LARRY RHUM – GREENVIEW LANDSCAPE

PAUL WOODS – OLM, INC.

SCORE: 94%

**NEXT INSPECTION
OCTOBER 3RD, 2019 AT 11:00 AM**

CATEGORY I: MAINTENANCE CARRYOVER ITEMS

NONE

CATEGORY II: MAINTENANCE ITEMS

HARBOR TOWNE

1. Pro-Shop entrance: Remove the leaves in the mulch beds.
2. Behind the clubhouse: Stager prune the Bush Daisey to maintain a low compact form.
3. Back lawn area: Continue selective turf weed controls.
4. West end of the playground: With a pole saw, reduce the over hanging limbs.
5. Adjacent to the maintenance shop: Rejuvenate prune the Fountain Grass once the blooms are spent.
6. **At the entrance: Improve the vigor in the Confederate Jasmine. Top dress the bed with mulch. I also recommend applying animal repellent to reduce deer damage.**

PARKWAY

7. Monitor for any broken branches in the trees.
8. Remove the accumulation of sand, gravel, and debris along the curbs.
9. **Near the intersection of Harbor Lake: Control bed weeds in the Jasmine planting.**
10. Kings gate entrance: Continue to stager prune the Oleander to improve the plant density but making the plants more symmetrical.

ENTRANCE

11. Confirm irrigation coverage near the exit side seasonal color bed at the base of the Crape Myrtle.
12. Control crack weeds along the curb lines.

LUTZ LAKE FERN

13. Continue to detail down to the standing water along the frontage, as drying improve increase the mowable to the wood line.

COMMONS

14. Along the Harbor Lake / Fishermen Bend commons: Prune back the wood line overgrowth.
15. Proceed with turf fertility rounds.
16. Reduce the windfall in the Viburnum hedgerows.

CATEGORY III: IMPROVEMENTS – PRICING

1. At the gatehouse: Provide a price to install perennial flowering Blue Daze in the planters, eliminating the old Aztec Grass.

CATEGORY IV: NOTES TO OWNER

NONE

CATEGORY V: NOTES TO CONTRACTOR

ACCOMPLISHMENTS

- Maintenance Technician's Time Was Focused On The Following:
- CDD Maintenance Activities Including Gate House, Entrances Monuments, Fountains And Common Areas
 - Gatehouse
 - Gate repairs
 - Installed new lights on gate house to illuminate entry and exit
 - Pro-Shop and Clubhouse
 - Worked on exterior maintenance of building
 - Renovation of pro-shop restrooms
 - Resident Concerns and Completed Items
 - Conducted a site visit to 19322 Aqua Springs Ct. To. Met with Mr. Enrique "Rick" Galang to assess the reported Cypress tree root problem.
 - Completed the cutback at 19110 Harbor Cove Court
- HOA Maintenance Activities Include The Following:
 - Repair restaurant freezer floor
 - Replaced vents in Kitchen
 - HOA Pool Area
 - General Pool Area Maintenance
 - HOA Sports Area Maintenance
 - Tennis Courts
 - Daily Maintenance Of Tennis Courts
 - Repaired Tennis Gate and Nets
 - Added Clay As Necessary
 - Install Hours of Operation Signs
 - Pest And Weed Control Around Roller Hockey Rink And Playground

GATEHOUSE MAINTENANCE

Received Two Proposals to Paint the Trim At The Gatehouse To Match The Newly Installed Awnings

MAINTENANCE ITEM - HERITAGE HARBOR PARKWAY

- Requested Two Proposals (Received one) Proposal for Pressure Washing of Lamp Posts along Heritage Harbor Parkway

THE INFORMATION IN THIS PROPOSAL IS CONFIDENTIAL

It is to be used only by the intended recipient and Precision Sidewalk Safety Corp in evaluating the project.
Any copying or unauthorized disclosure of this information is prohibited.

PREPARED FOR:

Heritage Harbor Community Development District • Lutz, FL

- Mr. Ray Lotito, District Manager
- Residents of Heritage Harbor

Precision Sidewalk Safety Corp (PSSC) uses proprietary and patented cutting technology to repair trip hazards created by changes in level on sidewalk panels. Our horizontal saw cut equipment and technique allow us to reach both ends of the sidewalk without damaging the adjacent slabs, retaining walls, sprinkler heads, landscaping, or anything else surrounding the walkway, resulting in a very high-quality repair. This unique approach has afforded Florida and South Carolina communities the ability to minimize liability and improve safety and aesthetics in their neighborhoods at more reasonable rates than conventional alternatives.

Site Review Summary

As requested, PSSC visited Heritage Harbor Community Development District to review the sidewalks at the Clubhouse and the cart paths around the golf course to identify trip and fall hazards that PSSC can repair. Prior to the review, PSSC met with Mr. Lotito to discuss what is important to the District and to understand specifications for this project. PSSC was directed to identify and price all changes in level from ¼" to 2" high at the Clubhouse and on the cart paths that our company can repair. The Americans with Disabilities Act (ADA) excerpts relevant to changes in level on walkways are included in Exhibit A.

Changes in level measuring ¼" – 2" in height at the Clubhouse and on the cart paths around the golf course were inventoried and a total of 680 hazards meeting the specifications were observed.

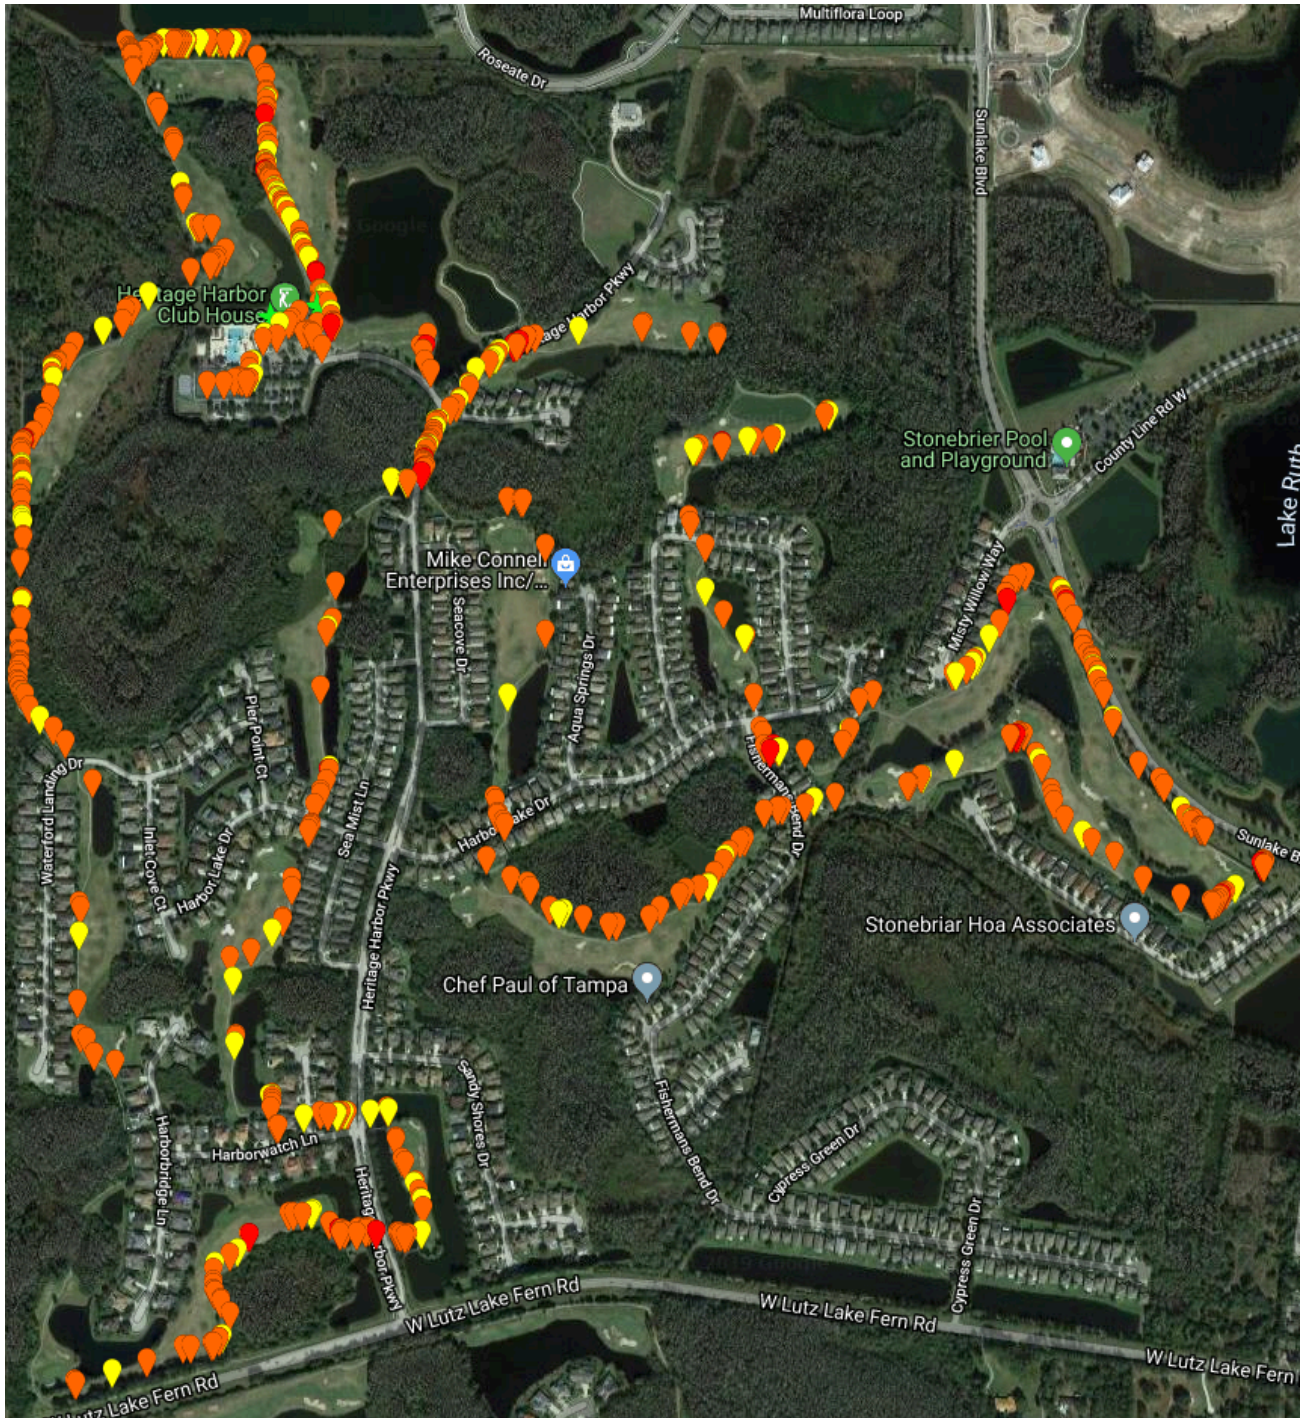

As directed by Mr. Lotito, hazards created by concrete surrounding storm drains intruding into the sidewalk right-of-way are **included** in this proposal (see Figure 4 in Photo Examples below).

This location is an ideal application for our precision concrete cutting repair method. The service will allow the Heritage Harbor CDD to mitigate risk and liability before an accident occurs, and to do it at a minimal cost. Our service includes a detailed, auditable report of every hazard repaired, so efforts to maintain safe sidewalks are well documented (see Repair Specifications section). This can be submitted to the insurance company, which will often provide lower rates or "credits" for communities with proactive programs in place to reduce liabilities.

When repair work is initiated, our experienced trip hazard removal specialists will precisely identify and record the exact quantity, measurements, and location of each hazard PSSC can repair. This more precise evaluation may result in quantities and measurements that vary slightly from this estimate, however the high end of the price range provided is a "not to exceed" estimate.

Site Review Area – Hazards Identified at the Clubhouse and on the Cart Paths at Heritage Harbor

The map in this proposal shows the approximate locations of trip hazards included in the scope of this proposal. The accuracy of this map is dependent on the technology available on smart phones and should be relied upon as approximations only. The **green star** represents hazards created by the concrete surrounding a storm drain intruding into the sidewalk right-of-way.

THE INFORMATION IN THIS PROPOSAL IS CONFIDENTIAL

Methodology – Preparing This Estimate

1. PSSC conducts a census of hazards that we can repair on the property's sidewalks; the hazards are then grouped into 3 categories:

<u>CATEGORY</u>	<u>SPECIFICATION</u>
Least Severe	¼ inch
Severe	3/8 inch to 7/8 inch
Most Severe	1 inch to 2 inches

2. An estimate of the volume of concrete requiring removal for each category was prepared based on our experience data base.
3. A “not to exceed” bid was prepared based on the estimated volume of repairs.

Hazards above 2 inches in height are normally not included in PSSC estimates. Since most sidewalks are a total of 3.5 to 4 inches deep, municipal engineers recommend repairs up to 2 inches in height because removing more than that will reduce the structural integrity of the sidewalks if a vehicle or other heavy equipment drives over it. Sidewalks with hazards greater than 2 inches in height are recommended for alternative remediation by the property owner. Severely broken panels and panels hollowed out underneath also need to be alternatively remedied by the property owners. **Hazards greater than 2 inches in height (see Figure 5) and severely broken panels (see Figure 6) were observed during our review. Since PSSC does not provide demolition and replacement, these types of locations are EXCLUDED from this estimate.**

Before work commences, our on-site trip hazard removal specialists will assess all panels identified in this proposal to ensure changes in level can be repaired using our technique. If it is determined that any locations should be remedied in an alternative way instead of repaired using our horizontal saw cut method, PSSC will exclude those repairs from our service.

Some sidewalk panels have holes, missing pieces, or hairline cracks which do not result in changes of level. These types of sidewalk imperfections cannot be repaired utilizing our precision concrete cutting method and are also **excluded** from this estimate. In some cases where a crack exists on a stable panel, the concrete on one side will be raised higher, creating a trip hazard. PSSC will always repair this type of trip hazard unless directed otherwise, but the original crack in the panel will remain.

Our initial site review identified **680 hazards** ¼" – 2" in height at the Clubhouse and on the cart paths around the golf course (shown in Table 1 below).

TABLE 1: HERITAGE HARBOR CDD CLUBHOUSE AND CART PATHS 680 TRIP HAZARDS BY HEIGHT CATEGORIES				
LOCATION	LEAST SEVERE	SEVERE	MOST SEVERE	TOTAL
1 st Hole	8	20	3	31
2 nd Hole	4	9	1	14
3 rd Hole	4	11	2	17
4 th Hole	7	18	2	27

TOTAL				

Photo Examples

Figure 1

Example of a 1/4" "Least Severe" hazard at the Clubhouse. These are often the hazards that people catch their toe on, as they do not notice them.

Figure 2

Example of a 3/4" "Severe" hazard at the Clubhouse.

Figure 3

Example of a 1½"
"Most Severe" hazard
on the 10th Hole.

Figure 4

Example of a ¾" "Severe" hazard
created by the concrete surrounding
a storm drain intruding into the
sidewalk right-of-way at the
Clubhouse. As directed by the
community, these types of hazards
are **included** in this proposal.

Figure 5

Example of a hazard over 2" in height on the 16th Hole. Hazards such as this are **excluded** from this proposal.

Figure 6

Example of severely broken panels on the 15th Hole. Locations such as this are **excluded** from this proposal.

Pricing Summary

Table 2 below provides an estimated price range to repair the 680 hazards from ¼" – 2" identified in Table 1. Repairs will be made at the ADA-compliant 1:12 slope. Our technicians take exact measurements of every hazard when we perform our work, so the final price will be determined by the actual volume of concrete removed to achieve the 1:12 slope, however **the high end of the range estimated is a "not to exceed" price.**

Heritage Harbor CDD can select from the following two pricing options, depending upon when the signed authorization is returned to PSSC. **PSSC proposals are valid for 90 days**, but if the signed authorization to repair all 680 hazards is returned to PSSC within 45 days of the proposal date, PSSC will extend a discounted rate. If the community chooses to do only a portion of the work, this discount will not be applied. If the signed authorization is received after the 45 days but before the 90-day expiration, the standard price range will apply.

TABLE 2: PRICING FOR 680 HAZARDS ¼" - 2" HIGH AT HERITAGE HARBOR CDD	
	PRICE RANGE
Price if signed authorization is returned to PSSC by October 19, 2019	\$51,342 - \$54,937
Price if signed authorization is returned to PSSC by December 3, 2019	\$53,910 - \$57,684

Precision Sidewalk Safety estimates that the work can be completed in 6 - 7 days with the note that wet weather will delay our operations. We will re-route pedestrian traffic on small sections of sidewalk (10'-15') for periods that range from 3 minutes to 20 minutes while those sections are being repaired. No assistance will be required from the community however, we do require that a representative of the community review and accept the work (or request adjustments) prior to the crew's estimated departure. While the cart path restoration project is underway, we will:

- keep the sidewalks in service
- require no heavy equipment or traffic control
- remove all debris and recycle the concrete waste materials
- leave the proposed areas clean and trip hazard-free

Figure 7: Precision Sidewalk Safety Work Example

Savings Summary

Precision Sidewalk Safety provides a professional service to hundreds of municipalities and private communities throughout Florida and South Carolina. Based on data shared by many of these customers, the comparative analysis in Table 3 shows the differences between available methods for sidewalk trip hazard repair.

TABLE 3: REPAIR METHOD COMPARISON FOR HERITAGE HARBOR CDD			
METHOD	ADA COMPLIANT	TIME REQUIREMENT	POSSIBLE INCIDENTAL DAMAGES
Precision	Yes	6 - 7 Days	None
Grinding	No	34 - 36 Days	Adjacent sidewalk panels, landscaping, and sprinkler heads
Replacement	Yes	113 - 117 Days	Broken sidewalk panels from weight of trucks and damage to landscaping

Grinding

Although grinding is sometimes used for the removal of trip hazards in private communities, it is not an ideal method for sidewalk repair as the equipment is not specifically designed for this use. Grinding often leaves unpleasant pitting and grooves on the surface of the concrete. Because it is very inflexible equipment, these markings occur not only on the panels with hazards, but also on the sidewalk panels adjacent to those panels. In addition, a grinder often leaves a hazard in place where someone could still trip and fall, because operators are forced to choose from either damaging something adjacent to the affected panel (landscaping, sprinkler heads, etc.) or leaving the repair with upturned edges. This repair method literally scrapes and pulverizes the concrete surface to take off some of the height differential, but it cannot meet the specified ADA requirements for proper slope.

In addition, grinding causes considerable dust and mess. If the dust is managed with water, the property risks slurry and runoff into storm drains or local water. In most cases, grinding cannot be compared to the Precision method, since grinding cannot achieve like results. Still, in a comparison of the same number and size hazards, Precision Sidewalk Safety is comparable in cost. Figure 8 shows results from a typical grind.

Figure 8: Typical Results from a Grinder

THE INFORMATION IN THIS PROPOSAL IS CONFIDENTIAL

Demolition and Replacement

The conventional approach to fully eliminating trip hazard liability is to demolish and replace hazardous panels. Done correctly to ensure a zero point of differential between existing and new sections, this method meets ADA specifications, and is the most comparable alternative to the PSSC method. However, the number of hazards that can be repaired on a fixed budget is very limited. Demolition and replacement can also be very obtrusive to a property. Sidewalks are often closed for days and cars sometimes need to be moved. Incidental damages to landscaping can occur.

Based upon various panel sizes totaling approximately 24,235 square feet and an estimated replacement cost of roughly \$9.75 per square foot, we estimate the cost to demolish and replace panels is \$236,291. This takes into account:

- Cost of concrete
- Labor to break up and remove existing concrete
- Labor to pour, form, level, finish, float & cut control joints
- Fuel for multiple site visits to repair or break-up, remove, pour, remove forms, and restore adjacent items
- Equipment such as a backhoe, vehicle to transport backhoe, utility vehicle, and dump truck to remove debris
- Miscellaneous materials to prepare concrete

Based upon the “not to exceed” price to repair all PSSC-repairable hazards ¼” – 2” in height at the Clubhouse and on the cart paths around the golf course, the maximum cost for PSSC repairs is \$57,684, which is an **estimated savings of \$178,607 or 76%**, shown below. This comparison assumes that only one panel would be demolished and replaced which is usually not the case, since replacing slabs often requires a “run” of two to five slabs. The **actual cost** for demolition and replacement would likely be three times this amount.

COST SAVINGS COMPARED TO DEMOLITION AND REPLACEMENT

Estimated Cost of Demolition
and Replacement = \$236,291

Environment Savings:

As a member of several “green” building associations, Precision Sidewalk Safety tracks savings from the use of our service, which is a green building practice. We utilize a dust containment system to minimize dust and portable equipment that consumes minimal energy. The small sections of concrete we remove are recycled. By using Precision Sidewalk Safety instead of demolition and replacement, Heritage Harbor CDD would achieve the following environmental savings:

Natural Resources Saved:

- Approximately **545 tons** of waste concrete from removal and placement in landfills (est. **8,016 cubic feet** of concrete at an average weight of 132 lbs. per cubic foot)
- approximately same amount of materials and resources to replace the concrete that was removed

Fossil fuels saved: estimated **849 gallons**

- hauling equipment to and from the site to remove sidewalks
- operating backhoe equipment to break up and remove concrete
- round trip transportation of estimated **545 tons** of debris to the landfill
- round trip transportation of new materials to replace the removed sidewalks

Prevented release of Carbon Dioxide gas: estimated **7.5 Metric Tons**

Repair Specifications

Precision Sidewalk Safety will submit a summary itemizing each trip hazard repaired. This report will include the following, which serves as a detailed, auditable invoice for each repair:

- a. The physical location (address, light pole #, etc.) of each repair
- b. The specific hazard height - high side and low side measurement – in 8ths of an inch
- c. The total width of actual repair in inches
- d. The square footage of repaired panel

Debris from repaired areas will be collected and removed and a dust abatement system will be used during all repair operations. All resulting repairs will be flat and uniform with a coefficient of friction exceeding OSHA requirements for public walkways.

This proposal is based upon removing all hazards that PSSC can repair from ¼” - 2” in height at the Clubhouse and on the cart paths around the golf course using a 1:12 repair slope.

The following special conditions are included in this proposal for the hazards identified in Table 1:

- Only hazards at the Clubhouse and on the cart path around the golf course
- Panels which are intact, stable, and not cracked, fractured, or settled
- Panels with hairline, spider, or multiple cracks(s) which are otherwise “stable” and “intact”
- Panels with surface imperfections or missing/sunken partial sections that are 90% useable
- Secondary walkways, e.g. connecting primary walkway to building front, side, or rear entry at the Clubhouse
- Rear sidewalks not on primary street walkway
- Storm drain or similar sidewalk incursions when directly in sidewalk right-of-way

The following special conditions **are not** currently included in or relevant to this proposal:

- Over-sized driveway aprons which connect normal sidewalk(s) on one/both sides
- Panels that run through the driveway having the same width as the sidewalk
- Access ramps that transition sidewalk to crosswalk
- Repair to building foundation slab
- Repair to staircase slab or under building roofline
- Hazards on entry panels
- Panels with “fill” material such as asphalt or Quikrete; fill must be removed prior to PSSC repair completion. If the community chooses to have PSSC remove this fill, PSSC is not responsible for any imperfections already in the underlying concrete or any impact the fill material may have had on the underlying concrete sidewalk.
- Curbing that is perpendicular to flow of traffic at access ramps. Repairs on curbs will be made to the best slope that the width of the curb surface allows
- Hazards adjacent to brick pavers which are not grouted into place.
- Hazards located on painted concrete at the end of walkways with ADA detectable warning areas. The community will need to make arrangements to have the panels repainted since this is not a service provided by PSSC.
- Panels having utility boxes wholly, or partially intruding in sidewalk right-of-way
- Hazards greater than 2” or panels that are too broken for repair
- Hazards caused by parallel “side by side” panels poured to increase sidewalk width

Safety:

Precision Sidewalk Safety Corp has a perfect safety record; we use OSHA approved equipment, certify all employees who work directly in trip hazard repair, and have outstanding safety practices for both employees and the public who may be using the walkways we are repairing. We have worked in dense urban, high pedestrian traffic areas, as well as residential neighborhoods and historic districts to complete projects without incident. Our clients often receive unsolicited compliments for the work we have performed.

Insurance and Incorporation:

Precision Sidewalk Safety Corp is a corporation registered in the state of Florida. Proof of liability, workers compensation, and auto insurance will be provided as requested.

Protection Under U.S. Patent and Trademark Laws:

The work provided by Precision Sidewalk Safety reveals equipment and processes, which are protected under United States patent laws. It is the use of these patents that enables us to provide the best available trip hazard removal service to our clients. Due to the nature of our business and in lieu of the ability to receive competitive bids for like services, our company provides documentation and reference to the patents that have been issued to our corporate office. Precision Concrete Cutting of Utah and its affiliates, along with The United States Patent and Trademark Office, takes an active and exacting role to protect and enforce intellectual property rights.

About Precision Sidewalk Safety Corporation:

Wendy and Alan MacMurray, the founders of Precision Sidewalk Safety Corp, have over 50 years combined experience in customer management, service delivery and project implementation and have been respected executives for global Fortune 500 companies as well as start-up companies. They introduced the Precision technology to Florida in late 2006 and South Carolina in 2007 and they now support hundreds of customers. The company has used its unique, patented technique to make over 300,000 repairs on sidewalks in the two states, saving communities an estimated \$46 million on sidewalk repairs.

EXHIBIT A: Excerpts from ADA Guidelines

Federal Register / Vol. 56, No. 144 / Friday, July 26, 1991 / Rules and Regulations

Federal Regulations on Trip Hazard Removal

Part III

Department of Justice

Office of the Attorney General

28 CFR Part 36

Nondiscrimination on the Basis of Disability Public Accommodations and in Commercial Facilities; Final rule

4.5 Ground and Floor Surfaces

Excerpts from Federal Register

4.5.2 Changes in Level. Changes in level up to 1/4 in (6 mm) may be vertical and without edge treatment. Changes in level between 1/4 in and 1/2 in (6mm and 13mm) shall be beveled with a slope no greater than 1:2. Changes in level greater than 1/2 in (13 mm) shall be accomplished by means of a ramp that complies with 4.7 or 4.8.

4.7.2 Slope. Slopes of curb ramps shall comply with 4.8.2. Transitions from ramps to walks, gutters, or streets shall be flush and free of abrupt changes. Maximum slopes of adjoining gutters, road surface immediately adjacent to the curb ramp, or accessible route shall not exceed 1:20.

4.8.2 Slope and Rise. The least possible slope shall be used for any ramp. The maximum slope of a ramp in new construction shall be 1:12. The maximum rise for any run shall be 30 in (760 mm). Curb ramps and ramps to be constructed on existing sites or in existing building or facilities may have slopes and rises as allowed in 4.1.6(3)(a) if space limitations prohibit the use of a 1:12 slope or less.

3 – a – 1. A slope between 1:10 and 1:12 is allowed for a maximum rise of 6 inches.

3 – a – 1. A slope between 1:8 and 1:10 is allowed for a maximum rise of 3 inches. A slope steeper than 1:8 is not allowed.

AUTHORIZATION TO PROCEED • FAX TO 866-669-1175

>>ESTIMATE IS VALID FOR 90 DAYS FROM DATE OF ISSUE<<

SCOPE OF PROJECT	Repair of trip hazards ¼" – 2" at 1:12 slope in areas identified in Proposal FLP1274. Please circle the authorization date and corresponding price range in the cost box below.		
COMMUNITY	Heritage Harbor CDD		
COST	PRICE IF AUTHORIZATION IS RECEIVED BY OCTOBER 19, 2019 \$51,342 - \$54,937	PRICE IF AUTHORIZATION IS RECEIVED BY DECEMBER 3, 2019 \$53,910 - \$57,684	Date:

This proposal provides a price which will not be exceeded given the scope of work specified and is based on: 1) an estimated number of hazards we anticipate our technician(s) can repair and 2) the resulting amount of concrete material our technician(s) will remove to render repairs compliant with approved customer specifications. Your final inventory of repairs may vary from this estimate. PSSC repairs only those uneven sidewalks specifically requested by you, our customer, and therefore makes no guarantee that the property is free of uneven sidewalk hazards or other trip hazards. PSSC may not complete a repair(s) because; 1. a hazard's actual measurement at the time of repair exceeds approved customer specifications, and/or 2. in the crew leader's judgment, our repair attempt would cause further damage to the concrete slab or be insufficient to satisfactorily remove the existing hazard and/or mitigate its potential liability. Such excluded hazards, if any, will be left "as found" and will require customer's alternative remedy. After the project is completed, new trip hazards will occur or reoccur due to tree roots, water, settling, and other natural and man-made causes outside of PSSC's control. Upon completion of the project, PSSC is not liable for any related claims, losses, or damages. At least 30 minutes prior to the crew's scheduled departure, customer (or designee) agrees to have inspected and either accepted all repairs as completed or determined suitable adjustment(s) (if any) as may be required, such that the crew's departure will not be delayed. PSSC will not be held responsible for cracks or other defects in poured concrete that may exist due to materials or methods used by original installer.

The undersigned acknowledges the above explanation of our estimate of work as well as the exclusions set forth in this Proposal, that he/she is legally authorized to engage Precision Sidewalk Safety Corp to deliver designated work, has seen a sample – photo or actual – of the resulting repair, and agrees to notify or mediate affected property owners.

Initial below in the space provided if you authorize PSSC to INCLUDE the following repair types:

_____ Repair of hazards created by the concrete surrounding storm drains intruding into the sidewalk right-of-way.

MINUTES OF MEETING
HERITAGE HARBOR
COMMUNITY DEVELOPMENT DISTRICT

The Regular Meeting of the Board of Supervisors of the Heritage Harbor Community Development District was held on Thursday, August 22, 2019 at 6:30 p.m. at Heritage Harbor Clubhouse, 19502 Heritage Harbor Parkway, Lutz, Florida 33558.

FIRST ORDER OF BUSINESS – Roll Call

Mr. Penzer called the meeting to order and conducted roll call.

Present and constituting a quorum were:

David Penzer	Board Supervisor, Chairman
Russ Rossi (<i>via phone</i>)	Board Supervisor, Vice Chairman
Shelley Grandon	Board Supervisor, Assistant Secretary
Patrick Giambelluca	Board Supervisor, Assistant Secretary
Clint Swigart	Board Supervisor, Assistant Secretary

Also present were:

Patricia Thibault	District Manager, DPFG Management & Consulting LLC
Raymond Lotito	Field Manager, DPFG Management & Consulting LLC
Mark Straley	District Attorney, Straley Robin Vericker

The following is a summary of the discussions and actions taken at the August 22, 2019 Heritage Harbor CDD Board of Supervisors Regular Meeting.

SECOND ORDER OF BUSINESS – Audience Comments

There being none, the next item followed.

THIRD ORDER OF BUSINESS – Landscape & Pond Maintenance

A. Exhibit 1: Greenview Landscape as Inspected by OLM – August 1, 2019 – 95%

➤ Landscape Scorecard

B. Aquatic Systems – August 6, 2019 Report

FOURTH ORDER OF BUSINESS – Operations

A. Exhibit 2: Golf Course Report

A District Championship will be held at the golf course.

B. Exhibit 3: DPFG Operations Report – August 2019

C. Consideration and Approval of Pole Barn for \$6,500.00

On a MOTION by Mr. Penzer, SECONDED by Ms. Grandon, WITH ALL IN FAVOR, the Board approved the deposit of \$975.00 for the construction of the Pole Barn, \$6,500.00, for the Heritage Harbor Community Development District.
--

FIFTH ORDER OF BUSINESS – Administrative

A. Exhibit 4: Consideration of the Regular Meeting Minutes – July 25, 2019

On a MOTION by Mr. Giambelluca, SECONDED by Ms. Grandon, WITH ALL IN FAVOR, the Board approved the Minutes of the Board of Supervisors Regular Meeting held on July 25, 2019 for the Heritage Harbor Community Development District.

B. Exhibit 5: Consideration of the July 2019 Unaudited Financial Statements

On a MOTION by Mr. Swigart, SECONDED by Ms. Grandon, WITH ALL IN FAVOR, the Board accepted the July 2019 Unaudited Financial Statement for the Heritage Harbor Community Development District.

SIXTH ORDER OF BUSINESS – Business Matters

A. Exhibit 6: Consideration of **Resolution 2019-05**, Designating Meeting Dates, Times, & Location

On a MOTION by Mr. Penzer, SECONDED by Mr. Giambelluca, WITH ALL IN FAVOR, the Board adopted Resolution **2019-05** Designating Meeting Dates, Times, & Location for the Heritage Harbor Community Development District.

B. Fiscal Year 2019-2020 Budget Public Hearing

➤ Open the Public Hearing

On a MOTION by Mr. Penzer, SECONDED by Mr. Giambelluca, WITH ALL IN FAVOR, the Board approved the opening of the Fiscal Year 2019-2020 Budget Public Hearing to the public for the Heritage Harbor Community Development District.

➤ Exhibit 7: Presentation of FY 2019-2020 Budget

➤ Public Comment

There being none, next item followed.

➤ Close the Public Hearing

On a MOTION by Mr. Penzer, SECONDED by Mr. Swigart, WITH ALL IN FAVOR, the Board approved the closure of the Fiscal Year 2019-2020 Budget Public Hearing to the public for the Heritage Harbor Community Development District.

C. Exhibit 8: Consideration of **Resolution 2019-06**, Adopting the Fiscal Year 2019-2020 Budget

On a MOTION by Mr. Penzer, SECONDED by Ms. Grandon, WITH ALL IN FAVOR, the Board adopted Resolution **2019-06** for the Fiscal Year 2019-2020 Budget for the Heritage Harbor Community Development District.

D. Fiscal Year 2019-2020 Assessment Public Hearing

➤ Open the Public Hearing

On a MOTION by Mr. Penzer, SECONDED by Mr. Giambelluca, WITH ALL IN FAVOR, the Board approved the opening of the Fiscal Year 2019-2020 Assessment Public Hearing to the public for the Heritage Harbor Community Development District.

➤ Public Comment

There being none, next item followed.

74 ➤ Close the Public Hearing

75 On a MOTION by Mr. Penzer, SECONDED by Mr. Swigart, WITH ALL IN FAVOR, the Board
76 approved the closure of the Fiscal Year 2019-2020 Assessment Public Hearing to the public for the
77 Heritage Harbor Community Development District.

78 E. Exhibit 9: Consideration of **Resolution 2019-07**, Providing for the Collection & Enforcement of
79 Special Assessments for Fiscal Year 2019-2020

80 On a MOTION by Mr. Penzer, SECONDED by Ms. Grandon, WITH ALL IN FAVOR, the Board
81 adopted Resolution **2019-07** for the Fiscal Year 2019-2020 Providing for the Collection & Enforcement
82 of Special Assessments for the Heritage Harbor Community Development District.

83 F. Exhibit 10: Consideration of Envera Proposal

84 ➤ Envera Proposal Opt. 1 – LED Barrier Arm

85 ➤ Envera Proposal Opt. 2 – High Speed LED Barrier Arm

86 Note: Monthly Investment Total - \$3,890.00. No financial increase.

87 On a MOTION by Ms. Grandon, SECONDED by Mr. Penzer, WITH ALL IN FAVOR, the Board
88 approved the Envera Proposal for High Speed LED Barrier Arm for the Heritage Harbor Community
89 Development District.

90 G. Exhibit 11: Presentation of Prior Dog Park Proposal

91 Tabled until further notice.

92 H. Exhibit 12 : Consideration of Greenview Landscape Proposal

93 ➤ 19110 Harbor Cove Court – Conservation and Tree Cut back - \$600.00

94 On a MOTION by Ms. Grandon, SECONDED by Mr. Penzer, WITH ALL IN FAVOR, the Board
95 approved the Conservation and Tree Cut Back for \$600 at 19110 Harbor Cove Court for the Heritage
96 Harbor Community Development District.

97 I. Golf Course Irrigation System Status

98 **SEVENTH ORDER OF BUSINESS – Staff Reports**

99 A. District Manager

100 There being none, the next item followed.

101 B. District Attorney

102 There being none, the next item followed.

103 C. District Engineer

104 There being none, the next item followed.

105 **EIGHTH ORDER OF BUSINESS – Supervisors Requests**

106 A supervisor addressed that school bus stops are unsafe for school children due to speeding
107 vehicles. A new bus stop location has been requested. The previous bus stop had been at the
108 intersection of Heritage Harbor Parkway and Sandy Shores Drive. It has since been moved to the
109 intersection of Heritage Harbor Parkway and Harborwatch Lane.

110 The Board requested a cut back on administrative expenses. Electronic distributions of
111 photographs were suggested to decrease costs.

112 **NINTH ORDER OF BUSINESS – Audience Comments**

113 There being none, the next item followed.

114 **TENTH ORDER OF BUSINESS – Adjournment**

115 Mr. Penzer asked for final questions, comments, or corrections before adjourning the meeting.
116 There being none, Ms. Grandon made a motion to adjourn the meeting.

117 On a MOTION by Ms. Grandon, SECONDED by Mr. Giambelluca, WITH ALL IN FAVOR, the Board
118 adjourned the meeting for the Heritage Harbor Community Development District.

119 **Each person who decides to appeal any decision made by the Board with respect to any matter*
120 *considered at the meeting is advised that person may need to ensure that a verbatim record of the*
121 *proceedings is made, including the testimony and evidence upon which such appeal is to be based.*

122

123 **Meeting minutes were approved at a meeting by vote of the Board of Supervisors at a publicly noticed**
124 **meeting held on _____.**

MAINTENANCE SCHEDULE AND PROPOSAL

Scope: Complete repairs and maintenance of bridges and abutment walls as described per location below. Pricing includes labor, materials, equipment, and insurance.

Locations are numbered by order of priority needed:

1) Hole #1 – #2

10' x 130' Timber Bridge

- a) Remove existing decking and curb, dispose of offsite.
- b) Replace decking and curb with new 3" x 8" decking, and 4" x 6" curbs on 4" x 6" blocking.
- c) Remove and replace abutment wall caps.
- d) All timbers to be pressure treated #1 grade .60 CCA Southern Yellow Pine lumber.
- e) Hardware to be 5/16" x 5" exterior construction lags for deck fastening and any framing repairs.
- f) Curb shall be fastened to decking with 3/4" galvanized bolts, nuts and washers.

Subtotal: \$29,150.

- Remove and Replace Abutment Wall Cap: \$940. Or \$7.25 per linear foot

Total Cost for #1 – #2 Bridge: \$30,090. Or \$224.50 per LF (abutment wall cap separate)

2 & 3) Hole #16 North & South

(2) 50' x 10' Timber Bridges

- a) Remove existing decking, rail, and curb, dispose of offsite.
- b) Replace decking and curb with new 3" x 8" decking, and 4" x 6" curbs on 4" x 6" blocking on curbed sections; and 2" x 6" bottom with 2" x 4" top horizontal rails, 2" x 6" rail caps, and 2" x 2" pickets on pedestrian height rails sections fastened with stainless steel screws.
- c) All timbers to be pressure treated #1 grade .60 CCA Southern Yellow Pine lumber.
- d) Hardware to be 5/16" x 5" exterior construction lags for deck fastening and any framing repairs.
- e) Curb shall be fastened to decking with 3/4" galvanized bolts, nuts and washers.

Total Cost for #16 North & South Bridges: \$18,270. Per Bridge*, or \$365 per linear foot

4) Hole #13 – #14

266' x 8' Timber Bridge

- a) Remove existing decking, and curb, dispose of offsite.
- b) Replace decking and curb with new 3" x 8" decking, and 4" x 6" curbs on 4" x 6" blocking.
- c) All timbers to be pressure treated #1 grade .60 CCA Southern Yellow Pine lumber.
- d) Hardware to be 5/16" x 5" exterior construction lags for deck fastening and any framing repairs.
- e) Curb shall be fastened to decking with 3/4" galvanized bolts, nuts and washers.

Total Cost for #13 – #14 Bridge: \$59,650. Or \$224.50 per linear foot

*All Bridges will be sealed with a Thompson's Clear Water Proofer/Protectant within 2 weeks of completion.

MAINTENANCE SCHEDULE AND PROPOSAL Cont'd

5) Hole #11 – #12

20' x 10' Timber Bridge

- f) Remove existing decking, and curb, dispose of offsite.
- g) Replace decking and curb with new 3" x 8" decking, and 4" x 6" curbs on 4" x 6" blocking.
- h) All timbers to be pressure treated #1 grade .60 CCA Southern Yellow Pine lumber.
- i) Hardware to be 5/16" x 5" exterior construction lags for deck fastening and any framing repairs.
- j) Curb shall be fastened to decking with 3/4" galvanized bolts, nuts and washers.

Total Cost for #11 – #12 Bridge: \$6,532. Or \$326.50 per linear foot

(*unless done concurrently with any of the other bridges, in which case price reduced to \$6,000.)

ADDITIONAL NOTES/COMMENTS

Potential Additional Costs: Should any rotten 3" x 12" stringers or pile caps be uncovered during demolition of any of the bridges, damaged pile caps and/or stringers shall be replaced at a cost of \$125. per board.

Sealing: All Bridges will be sealed with a Thompson's Clear Water Proofer/Protectant within 2 weeks of completion (included in costs listed by each item).

Respectfully submitted,

SIDEWALK TRIP HAZARD REMOVAL

Survey Estimate and Price Proposal

September 10, 2019

Heritage Harbor Community Development District • Lutz, FL

- Mr. Ray Lotito, District Manager
- Residents of Heritage Harbor

PROPOSAL FLP1274 – ADDENDUM	
DESCRIPTION	PRICE IF AUTHORIZATION IS RECEIVED BY DECEMBER 3, 2019
Repair of trip hazards measuring 1" – 2" in height on the cart paths around the golf course as identified in FLP1274.	\$7,277 - \$7,786
NOTES 1. Based upon the definitions provided by the Federal Americans with Disabilities Act and as identified in the original proposal, there are additional hazards on the cart paths around the golf course. As requested, hazards below 1" on the cart paths will be excluded from repairs. 2. Panels with hazards over 2" in height, panels that are hollow underneath, and panels that are severely broken are recommended for alternative repair methods. Since PSSC does not provide demolition and replacement, these types of panels are excluded from this proposal.	
	\$7,277 - \$7,786
	TOTAL

PRECISION SIDEWALK SAFETY CORP

THE INFORMATION IN THIS PROPOSAL IS CONFIDENTIAL

It is to be used only by the intended recipient and Precision Sidewalk Safety Corp in evaluating the project.
Any copying or unauthorized disclosure of this information is prohibited.

AUTHORIZATION TO PROCEED • FAX TO 866-669-1175

ESTIMATE IS VALID FOR 90 DAYS FROM ORIGINAL DATE OF ISSUE

SCOPE OF PROJECT	Repair of trip hazards 1" – 2" high at a 1:12 slope in areas identified in Proposal FLP1274-ADDENDUM.	
COMMUNITY	Heritage Harbor Community Development District	
COST	PRICE IF AUTHORIZATION IS RECEIVED BY DECEMBER 3, 2019 \$7,277 - \$7,786	DATE

This proposal provides a price which will not be exceeded given the scope of work specified and is based on: 1) an estimated number of repairs we anticipate our technician(s) will complete and 2) the resulting amount of concrete material our technician(s) will remove to render repairs compliant with approved customer specifications. Your final inventory of repairs may vary from this estimate. PSSC repairs only those uneven sidewalks specifically requested by you, our customer, and therefore makes no guarantee that the property is free of uneven sidewalk hazards. PSSC may not complete a repair(s) because; 1. a hazard's actual measurement at the time of repair exceeds approved customer specifications, and/or 2. in the crew leader's judgment, our repair attempt would cause further damage to the concrete slab or be insufficient to satisfactorily remove the existing hazard and/or mitigate its potential liability. Such excluded hazards, if any, will be left "as found" and will require customer's alternative remedy. After the project is completed, new trip hazards will occur due to tree roots, water, settling, and other natural and man-made causes outside of PSSC's control. Upon completion of the project, PSSC is not liable for any related claims, losses, or damages. At least 30 minutes prior to the crew's scheduled departure, customer (or designee) agrees to have inspected and either accepted all repairs as completed, or determined suitable adjustment(s) (if any) as may be required, such that the crew's departure will not be delayed. PSSC will not be held responsible for cracks or defects in poured concrete that may exist due to materials or methods used by original installer.

The undersigned acknowledges the above explanation of our estimate of work as well as the exclusions set forth in the "Repair Specifications" Section of this Proposal, that he/she is legally authorized to engage Precision Sidewalk Safety Corp to deliver designated work, has seen a sample – photo or actual – of the resulting repair, and agrees to notify or mediate affected property owners.

Todd Egler		Net 30	

Scope of work to be performed:

Propump and Control will provide materials, labor and equipment needed to replace wire from pump station to transfer pump control box. The following work will be performed:

- Remove existing power connections at main electrical panel and transfer pump.
- Remove all existing pull boxes and wire.
- Trench and lay new conduit to holding lake and from holding lake to control box.
- Install new submersible wire into conduit and across lake bottom.
- Connect new wire to main electrical panel and transfer control panel.
- Test for proper operations

Tax not included in quote.

This quote includes the labor for the temporary repairs made.

Note: The quoted price assumes that any and all components, not included in the quote, are in proper working order. If any of these items are found to be weak or defective, the repair or replacement will be quoted in addition to the original cost.

ACCEPTANCE:

If for any reason buyer is unable to accept delivery at the agree to date, then delivery shall be deemed completed in seller's warehouse for purposes of payment and seller shall store and subsequently deliver as provided above. Buyer will be responsible for additional handling fee of \$250.00 and storage charges of \$750.00 per month which will be added to invoice.

LATE FEES:

Late fee of 1 1/2 % of the unpaid balance will be charged per month on all accounts which are past due, plus any collections or attorney's fees incurred in settlement of past due accounts.

LIEN:

Seller retains a security interest in all products sold to buyer until the purchase price and other charges, if any, are paid in full as provided in Article 9 of the Uniform Commercial Code. Seller will file a Mechanics Lien or execute other documents as required to perfect the security interest in the products sold.

TAXES:

State, city and local taxes are excluded from the contract price unless otherwise noted. Sales tax will be invoiced on the contract price unless written exemption is provided.

FACTORY AUTHORIZED WARRANTY:

ProPump & Controls, Inc. warrants products manufactured by ProPump and associated component parts and/or labor, for defects in materials and workmanship for a period of one year following date of installation by ProPump, but not later than fifteen months from date of invoice if installed by others. For products sold by ProPump & Controls, Inc but manufactured wholly by others, ProPump will extend the manufacturer's warranty to the customer, and will assist in handling warranty claims. The foregoing constitutes ProPump & Control's sole warranty and has not nor does it make any additional warranty, whether express or implied, with respect to the pumping system or component. ProPump & Controls, Inc. makes no warranty, whether express or implied, with respect to fitness for a particular purpose or merchantability of the pumping system or component. ProPump & Controls, Inc. shall not be liable to purchaser or any other person for any liability, loss, or damage caused or alleged to be caused, directly or indirectly, by the pumping system. In no event shall ProPump & Controls, Inc. be responsible for incidental, consequential, or act of God damages, nor shall manufacturer's liability for damages to purchaser or any other person ever exceed the original factory purchase price.

The above quote meets or exceeds ANSI Safety Specification. Toro Commercial Equipment carries a two-year or 1500 hour warranty. All orders placed for allied equipment are the responsibility of the end user and outside vendor. Wesco Turf is not responsible for the ordering of product, price discrepancies, price increases or availability on any equipment supplied by other vendors. Wesco Turf will include allied equipment in the Toro equipment lease purchase for your convenience.

The preceding pricing is good for 30 days, not including Sales Tax, after which time new pricing would have to be submitted. Time of delivery may vary; please check when placing order.

***All FMV payments are subject to state and local taxes. *All CSC payments are calculated with applicable state and county sur-tax. Personal Property Tax may also be applicable and is not included.**

Thank you for considering Wesco Turf, Inc. for your equipment needs. If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

Taylor Eli
